Batam, ID (Indonesian citizens)

SUMMARY

A results-driven Fullstack Developer experienced in delivering scalable applications using React.js, Node.js, and GCP. Having recently concluded a dedicated period of family caregiving, I am fully prepared to return to the tech industry and leverage my technical expertise to create impactful digital solutions and enhance user experiences.

EXPERIENCE

Family Caregiver / Career Sabbatical — Batam, ID
May 2024 - Apr 2026

- Dedicated full-time hiatus to manage the health, daily logistics, and medical coordination for an elderly family member.
- Developed strong soft skills including crisis management, high-pressure problem solving, empathy, and adaptive communication
- Upgraded and maintained technical proficiency in modern web development frameworks through self-paced learning and personal projects during personal time.

PT Rainbow Tubulars Manufacture — Batam, ID
Staff IT - Contract — Apr 2025 - Oct 2025

- Acted as a technical escalation point for the Helpdesk team, resolving complex system operational issues.
- Re-architected the company's internal website, improving the user experience (UX) which resulted in a 15% decrease in bounce rate and a 25% increase in user session duration.
- Managed and scaled the MariaDB database to support a 20% quarterly data growth, ensuring 99.9% system uptime and reliability

Self Employed — Remote, ID
Frontend Developer - Freelance — Jan 2023 - Jul 2024

- Developed and launched 5+ responsive websites for local business clients using React.js and Next.js, boosting average user engagement by 30%.
- Collaborated with clients and stakeholders using Agile (Scrum) methodologies to ensure timely delivery and alignment with business goals..

SOCA AI — Bandung, ID
Fullstack Developer - Internship — Feb 2023 - June 2023

- Developed a feature-rich, interactive quiz studio web application using Vue.js, improving content creation efficiency for instructors.
- Adhered to best practices in code quality and web performance, contributing to a 15% improvement in application load times

PROJECTS

Pekan Olahraga dan Seni (PORSENI) MA Jawa Timur

- Architected and developed a comprehensive event management platform from scratch that successfully handled registration for **2,000+ participants** and **500+ officials** across 34 municipalities in East Java.
- Implemented an automated certificate generation feature, **reducing manual administrative work by 90%** for the event organizers.
- Tech Stack**: Next.js, TailwindCSS, Prisma, PostgreSQL.**

SPACEWORK - REMOTE JOBSEEKERS

- Led the frontend development for a remote job search platform as a final university project, focusing on creating a clean, intuitive, and responsive user interface.
- Implemented key features such as dynamic job filtering, user profiles, and application tracking.
- Tech Stack: React.js, TailwindCSS, Prisma, MySQL, Vercel

KECILINK - SHORTER URL Website

- Built and deployed a high-performance URL shortening service designed for efficient link management and sharing.
- Tech Stack**: HTMX, TailwindCSS, Elysia.js, PostgreSQL, Google Compute Engine**

TECHNICAL SKILLS

Frontend : HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Vue.js, SvelteKit, TailwindCSS
Backend : Node.js, Express.js, Elysia.js, Go, PHP, Laravel
